

supreme 2 chamber set-up and assembly

getting started

Before you begin assembly allow all foam to expand for at least 1 hour

Open all boxes. Make sure you have all of the components in the parts list. If you are missing any item(s) please contact a Sleep Specialist toll free at 1-844-718-6717.

Prepare foam support tray and comfort layer. Carefully open the plastic bag surrounding the foam support tray and foam comfort layer. The foam support tray and foam comfort layer are shipped compressed and will take time to recover to their proper size.

Decide where to place your new Sleep System. Make sure that there is an electrical outlet nearby.

Assemble your bed frame (sold separately). If using a slat support system and not a heavy duty metal bed frame, make sure to position the slats evenly to support the foundation. If your bed has fewer than three slats, we suggest adding additional slats to ensure adequate support of your Synchrony™ Sleep System,

Surge protector recommended. Your 25 year limited warranty does not cover damage due to a power surge, regardless of the source. See warranty terms for complete details.

1

Remove Foam Mattress Support Tray and Foam Topper from box 1. Remove plastic bag and set foam aside to recover. **Foam recovery and expansion may take up to 1 hour.**

2

Have your foundation or platform bed base ready for new bed. (Not included)

3

Unzip top portion of Two Piece Mattress Cover. Set top portion (with the blue bottom) to the side.

4

Place bottom portion of Two Piece Mattress Cover on top of your foundation or platform bed base. Ensure pre-cut hose opening is at head of bed and logo is at the foot of the bed.

5

After Mattress Support Tray has expanded, position on top of the Two Piece Mattress Cover.

6

Install Safety Liner (blue) over Mattress Support Tray.

NOTE: The Mercury does not include a Safety Liner

parts list:

- 1 - Air Processor - Boxed
- 2 - Hand Controls - Boxed with Processor
- 2 - Non-Inflated Vulcanized Rubber Air Chambers - Wrapped
- 1 - Two Piece Mattress Cover (bottom and top) - Wrapped
- 1 - Foam Mattress Support Tray (White) - Wrapped
- 1 - Foam Topper (Blue) - Wrapped with Support Tray
- 1 - Safety Liner (Blue) - Wrapped (not included with Mercury model)
- 1 - Owner's Manual/Warranty

shipped:

- One Large Box
- One Medium Box

Scissors recommended to complete Set-Up -
2 people recommended for easier assembly

**IF MISSING PARTS

At the head of the bed, ensure the hole in the Safety Liner aligns with the hole in the Foam Support Tray and the hole in the Mattress Cover.

Bring the sides of the bottom of the Two Piece Mattress Cover up and around the Foam Mattress Support Tray.

Place the two un-inflated air chambers side by side in the Support Tray. The chambers are labeled either left or right. The air chambers should be placed so the right/left labels are at the head of the bed.

Insert air hoses through the hole in the Safety Liner and through the holes in the Mattress Cover and Foam Tray, making sure hoses protrude approx. 2 ft. from the head of the bed.

Place air processor under hoses protruding from the head of the bed. Connect color coded hoses from the mattress to the corresponding color coded nozzles on the processor. Hoses will "click" when securely in place.

Attach one hand control to the "LH" connector and the other control to the "RH" connector on the air processor. Standing at the foot of the bed, "LH" refers to the left side of the bed and "RH" refers to the right side of the bed.

Plug Air Processor into a surge protector and proceed to inflate air bed by pressing the auto fill button of each controller. Once both chambers are filled, position them evenly inside the Support Tray.

Place the Foam Topper (blue) with the white, non-skid surface facing down, evenly over the surface of the two individual air chambers.

Center top portion of the Two Piece Mattress Cover on the Foam Topper. At the head of the bed, insert the pin of the zipper (on the top cover) into the slider head (on the bottom cover) and secure.

Zip the top portion of the Two Piece Mattress Cover to the bottom of the Two Piece Mattress Cover. Please allow 24-48 hours for full expansion.

**ENJOY YOUR
NEW MATTRESS!**
